**Steve loves playing music and he loves to make people smile. So, it only makes sense that the retired NL Power employee gets to couple those two passions several times a week at seniors homes around St. John's. It is impossible to add up how much time Steve has spent volunteering his time. He was asked more than a decade ago to play at a local seniors residence. He agreed, and the rest is history. Thousands of songs later, Steve is sought after by recreation directors at homes all over the Avalon Peninsula.**
